

Call
1-800-332-DUMP
to report:

Waterway Blockages

Debris and obstructions in waterways can cause flooding. Our stream maintenance crews and debris boats work throughout our region to keep our waterways clean and flowing well.

Illegal or Suspicious Dumping to Waterways or Sewers

Waste needs to be properly treated and disposed of or it can harm our waterways and treatment plants. If you see something suspicious, call us.

Odors

What's that smell? We are working to mitigate odors at our facilities and aim to be good neighbors. Odor reports help us improve our systems, so please do your part: if you smell something, let us know.

We want to hear from you.
You can also submit reports at
mwrđ.org and via our **ios app**.
