MWRD seeks applicants for Sustainable Landscaping and Biosolids User awards

Applications due September 6

The Metropolitan Water Reclamation District of Greater Chicago (MWRD) is accepting applications for its 2013 Sustainable Landscaping and Biosolids Beneficial Reuse Awards until September 6, 2013.

The awards will recognize the activities and innovations of individuals and organizations in Cook County such as park districts, villages, schools, golf courses, and athletic clubs in two separate categories: sustainable landscaping and beneficial reuse of biosolids. Biosolids are a safe byproduct of the water treatment process that can be used to improve soil fertility and soil moisture holding capacity.

The beneficial reuse of biosolids may be demonstrated through any one of or a combination of the following:

- Continuous commitment to maximize and improve the cost-effectiveness of using biosolids.
- Promotion such as, but not limited to, referrals and field demonstrations.
- Educational efforts on the benefits of biosolids.

The sustainable landscaping award may be demonstrated through the innovative use of green infrastructure, capital investment, and how an individual or organization promote green landscaping to educate the community. The goal is to present an award to an individual or community that integrates sustainable practices in the environment that manages stormwater.

Green infrastructure alternatives include:

- Rainwater Harvesting, i.e. through rain barrels
- Rain Gardens
- Native Landscaping
- Stormwater Trees
- Porous Pavement
- Bio-Swales
- Green Roofs
- Greenways
- Wetlands
- Green Alleys, Streets, and Parking Lots

Activities completed after January 1, 2008 are eligible for awards, and an individual or organization is eligible to receive an award once every five years. Applications should include figures, illustrations, narrative, and photos to help further explain the efforts. The evaluation process may include a site visit.

Submit application packages to: Dr. Lakhwinder S. Hundal, CPSS,
MWRD Monitoring & Research Department
6001 W. Pershing Road, Cicero, IL 60804

Awards will be presented at the MWRD's first Sustainability Summit on Sept. 26 at the Raday Lodge, 3220 145th St., Midlothian. For more information about the biosolids program, awards or Sustainability Summit, contact (312) 751-6633.

Our water environment, Take it personally.

Established in 1889, the MWRD (www.mwr.org) is an award-winning, special purpose government agency responsible for wastewater treatment and stormwater management in Cook County, Illinois.
