Dear Mr. Keller:

Subject: Calumet East Solids Management Area - Calumet Water Reclamation Plant,
Illinois Environmental Protection Agency Permit No. 2010-AO-0265-1,
Monitoring Report for July, August, and September 2014

The attached tables contain the monitoring data for the Calumet East Solids Management Area for July, August, and September 2014 as required by Illinois Environmental Protection Agency (IEPA) Operating Permit No. 2010-AO-0265-1.

The data reported are as follows:

Table 1, Analysis of Water from Lysimeters L-1N through L-6N at the Calumet East Solids Management Area Sampled on July 9, 2014.

Table 2, Analysis of Compositated Biosolids Placed in the Calumet East Solids Management Area During July 2014.

Biosolids were placed in the solids drying area during July 2014. Based on the requirements of the revised IEPA permit issued on January 27, 2014, and effective immediately, analysis of biosolids removed from this site will no longer be reported under this permit. The list of parameters for lysimeter samples has also been modified to include only pH, Cl⁻, SO₄²⁻, and NO₂+NO₃-N.

Very truly yours,
