Board of Commissioners and Officers listed as of the date of printing – June 7, 2012
AN ORDINANCE TO AMEND THE SEPTIC TANK, CESSPOOL AND CHEMICAL TOILET WASTES DISPOSAL ORDINANCE OF THE METROPOLITAN WATER RECLAMATION DISTRICT OF GREATER CHICAGO

BE IT ORDAINED by the Board of Commissioners of the Metropolitan Water Reclamation District of Greater Chicago: That the Septic Tank, Cesspool and Chemical Toilet Wastes Disposal Ordinance, originally passed by the Board of Trustees of the Metropolitan Sanitary District of Greater Chicago on June 6, 1996, and as amended, is herewith and now comprehensively amended to read as follows:

CHEMICAL TOILET WASTES DISPOSAL ORDINANCE

For the purpose of promoting and protecting the public health and welfare, preventing the pollution of rivers and streams, suppressing disease and pursuant to “An Act to create Sanitary Districts and to remove obstructions in the Des Plaines and Illinois Rivers approved May 29, 1889, as amended.”

IT IS HEREBY ORDAINED BY THE BOARD OF COMMISSIONERS OF THE METROPOLITAN WATER RECLAMATION DISTRICT OF GREATER CHICAGO, HE-REINAFTER REFERRED TO AS THE DISTRICT.

Section One — Definitions

(a) The word “cleanings” shall mean waste materials removed from chemical toilets as herein defined.

(b) The term “chemical toilet” as used in this Ordinance shall mean and include a portable septic toilet, portable chemical closet and any other portable wa-
tertight enclosure used for storage and/or decomposition of human excrement and/or domestic wastes.

(c) The word “Director” shall mean the Director of Monitoring and Research of the Metropolitan Water Reclamation District of Greater Chicago.

(d) The word “District” shall mean the Metropolitan Water Reclamation District of Greater Chicago.

Section Two — Prohibited Activity

(a) It is unlawful to discharge into the facilities of the District, cleanings from septic tanks and cesspools.

(b) It is unlawful to discharge into the facilities of the District, cleanings from chemical toilets without first obtaining written permission from the Director. Any discharge authorized by the Director shall only be at such locations and in such manner as the Director shall designate.

Section Three — Disposal Permits

(a) Applications for written permission as required by Section Two shall be filed with the Director. One application shall be filed by each person or business entity seeking a permit. All information and documents required by the Director shall be included in the application. These include but are not limited to permits from the State of Illinois Department of Public Health and the Cook County Department of Public Health, the number, capacity, usage and license plate numbers of all tank trucks which will be discharging into the facilities of the District, and copies of insurance certificates.
(b) The Director shall issue a written permit, or written denial thereof itemizing the reason(s) for rejection, within 15 days of the date of his receipt of the application. Each permit issued shall designate the location and manner in which such cleanings may be disposed of and the period of time during which such disposals shall be permissible, provided that no permit shall be valid for a period of more than one year.

(c) One permit shall be issued to each person or business entity under the name of that person or business entity whose application has been approved. The Director shall issue separate copies of the permit for each vehicle operated by the Permittee and authorized by the District to discharge cleanings into the facilities of the District. Each separate copy of the issued permit shall be identified by the vehicle’s current license plate number. The copy of the permit which identifies the vehicle as authorized to discharge cleanings into the facilities of the District must be in the possession of the vehicle driver at all times.

(d) In no case will any vehicle that is permitted by the Illinois Environmental Protection Agency to haul special or hazardous waste, or that is used to pump or hold special or hazardous wastes, be permitted to discharge cleanings from chemical toilets into the facilities of the District.

(e) A permit may be revoked or suspended by the Director for violation of any provision of the Ordinance but only after written notice has been given to the Permittee indicating the nature of the violation. Any Permittee whose permit has been revoked, suspended, or not renewed and any person whose permit application has been denied may request a review of the Director’s decision.

Such request must be made in writing, to the Director, and must clearly state the reason(s) why such Permittee believes that the revocation or suspension of the permit should be reversed. Any request for review must be received by the Director within 15 days of the date of notification that the permit has been revoked or suspended. The Director will give his decision within 15 days of the date the request for review was received by his office. A Permittee may not discharge into District facilities during the period of review without the written approval of the Director.

(f) The Director may defer the issuance of new or additional permits to dispose of cleanings from chemical toilets into the facilities of the District at any time when, in the Director’s opinion, issuance of new or additional permits may potentially threaten or have adverse impact on the District’s treatment and/or sludge application operations. Any such deferment will remain in effect until such time as the Director has determined that the treatment and/or sludge application operations of the District may no longer be threatened or adversely impacted by the issuance of new or additional disposal permits.

Section Four — Administration

This Ordinance shall be administered and enforced by the Executive Director of the District through the Director who is hereby designated the enforcing officer. Under this Ordinance, the Director shall establish and enforce the Rules and Regulations for the disposal of cleanings from chemical toilets into the facilities of the District.
Section Five — Disposal Facilities

(a) Disposal of cleanings from chemical toilets shall be permitted at the Stickney Water Reclamation Plant, 6001 West Pershing Road, Stickney, Illinois and/or at such other locations as determined by the Director.

(b) The normal working hours for the disposal of cleanings from chemical toilets shall be established by the Director and published in the Rules and Regulations which govern the disposal of such wastes.

(c) The Director may, under special circumstances, authorize after-hours disposal of cleanings from chemical toilets. Requests for such authorization must be made in writing to the Director.

(d) Access to the disposal location designated herein is limited to vehicles identified under a permit issued pursuant to this Ordinance and shall require that such vehicles permanently display on both sides of the vehicle in legible painted letters the name, address and telephone number of the Permittee and the total volumetric capacity, in gallons, of the permitted vehicle tank compartment. The Permittee’s name shall be at least eight inches high in contrasting colors.

Section Six — Insurance

The Permittee shall carry such insurance as is deemed necessary by the Director to protect the District against all claims for damages incurred during the disposal of wastes into the facilities of the District. The Permittee shall supply the District with evidence of insurance upon receipt of a demand by the District of proof of insurance.

Section Seven — Rules and Regulations

The Rules and Regulations for the disposal of cleanings from chemical toilets and approved holding tanks into the facilities of the District as established by the Director are set forth in the permit approval letter and are made a part of, and incorporated into, each permit. Violation of any of the provisions of the Ordinance or the Rules and Regulations may result in the revocation or suspension of the permit.

Section Eight — Prohibitions and Limitations

(a) Permittees under this Ordinance who do not comply with Chapter I, Section 905.170 of the Illinois Administrative Code are prohibited from discharging cleanings, as defined by this Ordinance, into the facilities of the District.

(b) The disposal hereunder of oil wastes, industrial wastes, toxic wastes or hazardous wastes is specifically prohibited.

(c) The disposal hereunder of any wastes which contain materials other than human excrement or domestic wastes or which contain materials chemically uncharacteristic of human excrement or domestic waste is specifically prohibited.

(d) The disposal hereunder of waste from any source other than a chemical toilet used exclusively for domestic waste is specifically prohibited.

(e) The disposal of the contents of any holding tank is specifically prohibited, unless prior written approval is received from the Director.

(f) The disposal of septic system wastes from commercial facilities engaged in
food preparation activities which generate fats, oils and greases is specifically prohibited.

(g) The Director may commence enforcement proceedings when a finding is made that any waste disposed under a permit issued pursuant to this Ordinance is found to exceed the maximum concentrations acceptable for discharge of hauled wastes from domestic chemical toilets or approved holding tanks into District facilities. The maximum concentrations accepted, based on dry-weight analysis, are as follows:

<table>
<thead>
<tr>
<th>Waste or Chemical</th>
<th>Concentration (mg/Kg)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cyanide (total)</td>
<td>100.0</td>
</tr>
<tr>
<td>Zinc</td>
<td>2,000.0</td>
</tr>
<tr>
<td>Cadmium</td>
<td>35.0</td>
</tr>
<tr>
<td>Copper</td>
<td>1,200.0</td>
</tr>
<tr>
<td>Chromium (total)</td>
<td>300.0</td>
</tr>
<tr>
<td>Iron</td>
<td>15,000.0</td>
</tr>
<tr>
<td>Nickel</td>
<td>80.0</td>
</tr>
<tr>
<td>Lead</td>
<td>180.0</td>
</tr>
<tr>
<td>Mercury</td>
<td>5.0</td>
</tr>
</tbody>
</table>

In any enforcement proceedings, the relief sought by the District may include, but is not limited to, revocation or suspension of the permit.

**Section Nine — Cost for Disposal**

(a) A nonrefundable administrative fee of $1,500.00 for the review and processing of a permit application is payable at the time of permit application submittal. An additional fee of $350.00 will be charged for each subsequent review of a permit application.

(b) Charges for the disposal of wastes in conformance with this Ordinance shall be administered via a prepaid coupon system.

(c) Charges shall be based on the total volumetric capacity of the permitted vehicle tank vessel.

(d) Coupons shall be purchased in advance and remitted to the District upon entry to District facilities, as designated by Section Five (a) of this Ordinance, for the purpose of disposing of wastes in conformance with this Ordinance.

(e) The schedule of charges for the disposal of wastes in conformance with this Ordinance is as follows:

<table>
<thead>
<tr>
<th>Total Volumetric Capacity of Tank Compartment</th>
<th>Charge</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than or equal to 950 gallons</td>
<td>$40.00</td>
</tr>
<tr>
<td>Greater than 950 gallons but less than or equal to 1,900 gallons</td>
<td>$75.00</td>
</tr>
<tr>
<td>Greater than 1,900 gallons but less than 3,000 gallons</td>
<td>$110.00</td>
</tr>
<tr>
<td>Equal to or greater than 3,000 gallons</td>
<td>$150.00</td>
</tr>
</tbody>
</table>

(f) After-hours disposal of waste, in conformance with Section Five (c) of this Ordinance, shall be charged at a rate of triple the schedule of fees established by this Section.
(g) Coupons issued to persons permitted under this Ordinance are nontransferable.

(h) Fees and charges provided herein are subject to annual revision by amendment to this Ordinance.

Section Ten

This Ordinance shall take effect immediately upon and after its passage and publication as provided by law.

This Ordinance shall become effective immediately upon the passage thereof.
